

## Rolling Plan for the Republic of Zimbabwe

As of August, 2018

Basic Policy of Assistance	<b>Sustainable Development Assistance for ZIMASSET</b>
----------------------------	--

Priority Area 1	Facilitation for Smooth Integration into the Southern African Regional Economy											
Promotion of Integration into the Southern African Regional Economy	[Background and current situation] Despite improvements in the socio-economic situation after the introduction of the multi-currency system as a countermeasure for serious economic decline caused by hyperinflation in 2008, the maintenance of the infrastructure remains a challenge due to lack of government financial space. Along with the economic integration of the Southern African region, stagnant logistical and Infrastructural development of Zimbabwe which is located in the hub of the region, not only hampers its own sustainable development, but also the smooth development of the entire region.					[Strategy] Tackle various factors which hamper integration of Southern African economies by facilitating connection logistics between Zimbabwe and her neighbours countries and the development of regional infrastructure that aims to improve the smooth integration of Zimbabwe into the regional economy.

Priority Area 2	Effective Utilization of Abundant Resources												
Industrial development contributing to the effective utilization of various resources	[Background and current situation] Zimbabwe has abundant resources including various minerals, touristic sites such as the world-renowned Victoria Falls, fertile soil suitable for agriculture, as well as highly educated nationals. Effective utilization of these resources would enable the country to realise high economic development, but economic situations have deteriorated since the resources have not been utilized effectively.					[Strategy] Promote industrial development which effectively utilises its abundant resources of the country, including Public-Private Partnerships.							
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note

Priority Area 3	Assistance for the Human Security of Poor People											
Securing the Human Security	[Background and current situation] In order to attain sustainable development, a healthy and equitable society from which all people benefit from economic gain, early recovery of the living standards that were deteriorated by the economic turmoil following 2000, must be achieved. Furthermore, there are landmines that were laid during the 1970s independence war still remaining along the border of the Mozambique. They continue to pose a serious threat to life of the residents of the surrounding communities.					[Strategy] Implement various activities leading to reduce maternal and infant mortality, improvement access to safe water and sanitation environment in the rural areas, improvement of sewerage treatment in urban areas and mitigating against of food shortages caused by recent climate change. Assist demining activities.
